Greetings in the Name of the Lord!

We flew over to the Dominican in September to begin construction on a church in the town of Lavpie. Bro. Zack Padgett, Bro. John Meredith, Bro Craig Benner, and I arrived Sunday, September 16th and were able to start clearing the land Monday morning. The Lord favored us with good weather and by Friday evening we

had all the footings dug, poured with concrete and had laid about 900 blocks, on the 40 X 60 church. Most of the men that we hired to help us work were not Christians, but we found favor with them and they became our friends before we left. Friday morning, before we started to work, I took time to talk to them collectively about the importance of becoming a Christian. I told them about Noah's carpenters. Noah's carpenters worked on the ark but were lost in the flood because they would not accept the God of Noah. I thanked them for their hard work on the church but informed them that just working on the church was not enough. They must be born again. I pray that God will save every person that labors toward the construction of this church.

We were able to send 50 pair of the Shoes That Grow to African Holiness Missions. Bro. Curtis Teague will be carrying these over to Africa. We appreciate those that continue to support the shoe distribution ministry. To

date we have purchased and shipped over \$10,000.00 in shoes

We also sent almost 1000 bibles to shelters in North Carolina. Bro. John Sewell has been involved in storm relief efforts. He contacted us last month and said that many people were requesting Bibles.

We will be flying back over to the Dominican in November to sponsor a medical clinic in Batista. We will be distributing medicines and providing a medical checkup to the people in the village.

Thanks to your support we can provide shoes, Bibles, and medicine to those in need. May God bless you.

Bro. Steve Gentry
